LAUNDRY MIS · DGMH UP

Hospital User Manual

For the nodal staff of the hospital

Directorate General of Medical & Health Services, Uttar Pradesh

Version: October 2026

1. Your role in Laundry MIS

The hospital records the linen sent for wash, checks the clean linen that comes back, and every week scores the laundry firm's service in the Weekly Performance Report (WPR). The hospital's CMS then verifies the WPR, and only verified WPRs count for the bill and the payment.

- Raise linen pickups by ward and shift.
- Accept or reject the delivered linen and keep the weekly delivery log.
- Submit the weekly WPR.
- Generate the monthly payment and, when needed, warning letters.

2. Getting your login and signing in

Register with an activation code

1. Get the activation code of your hospital from the Admin (DGMH Directorate).
2. On the home page click Register (Register with an activation code).
3. Choose your hospital from the list, enter the activation code, fill in the contact details (mobile and email) and set a password.
4. Submit. The login is now tied to your hospital's record.

Signing in

1. Open the Laundry MIS home page.
2. In the Sign in box choose User type: Hospital.
3. Enter your registered mobile number or email and the password, and click Sign in.

Safety: After too many wrong passwords the account is locked for a few minutes. Never share the password.

3. The menu

Menu item	What it is for
Dashboard	Summary of the hospital's work and quick buttons (New Pickup, Generate Payment, Warning Letters).
Pickup Linen	List of pickups; raise a new pickup, see deliveries and accept or reject them.
WPR Entry	Score and submit the Weekly Performance Report.

Submitted WPR	All WPRs submitted by the hospital with their status (Pending / Verified).
Delivery Report, Weekly Delivery, Monthly Delivery, Delivery Aging	Reports of linen picked up, delivered and pending.
Generate Payment, Payment List	Monthly payment calculation and its status.
Warning Letters	Warning letters issued to the firm.

Use the ☰ button at the top left to open or close the menu. Use Logout at the top right when you finish.

4. Linen pickup

1. Open Pickup Linen and click New Pickup.
2. Fill in Pickup Date, Ward, Shift and Provider.
3. For each Linen Type enter the Collected Qty (mark infected linen where asked).
4. Fill in Collected By, Received By, Supervisor and Remarks, and save.
5. The pickup is now Pending for the firm. While it is still pending it can be edited or deleted, and a pickup slip can be printed.

Checking the delivery

1. When the firm delivers the clean linen, the pickup shows the delivery (status Delivered or Partial Delivered).
2. Open the Delivery Details of the pickup and compare the quantities with the delivery challan.
3. Click Accept for a correct delivery, or Reject if it is not correct. Accept and Reject are given per row.
4. Accepted pickups show a Verified badge.

Weekly verification and logbook

1. Open the Weekly Verification Report page, choose Month and Year and click Filter.
2. For each week check the Pickup, Delivered and Pending figures, add a remark and click Verify.
3. Upload the signed logbook (PDF, JPG or PNG) and click Save LogBook. Use View LogBook to open it later.

5. Weekly Performance Report (WPR)

The WPR measures how well the firm served the hospital in one week and decides how much of the monthly bill is paid. Week 1 = days 1–7, Week 2 = days 8–14, Week 3 = days 15–21, Week 4 = days 22–28, Week 5 = day 29 to the end of the month (a 28-day month has only four weeks).

1. Open WPR Entry.
2. Choose Year, Month and Week.
3. Parameters marked Auto calculated are filled in by the portal from the delivery data. Score the other parameters from 0 to 10 and add Remarks.
4. Check the total and the Payment % shown on the page.
5. Click Submit WPR. Use Reset to clear the form before submitting.

> **Submitted WPR cannot be changed:** After Submit WPR the WPR is saved as Pending and the hospital cannot edit it. If a score is wrong, inform the CMS – only the CMS can correct it before verifying.

- Submit the WPR by the 5th day of the following week.
- The weeks of a month may also be submitted together at the end of the month.
- The same week cannot be submitted twice.

The ten parameters

#	Parameter (scored 0 to 10)
1	Hospital linen quality after wash
2	Timely supply of clean and washed linen
3	Washing procedure / formula and quality consumables followed
4	Laundry personnel displaying photo ID card
5	Behaviour of laundry personnel towards hospital staff and patients
6	Personnel found smoking / drinking / sleeping during duty
7	Personnel found on duty other than the approved list
8	Breakdown of equipment
9	Alternate arrangement during equipment breakdown
10	Number of warning letters issued by the hospital authority

How the total becomes the payment

Total score (out of 100)	Share of the monthly bill that is paid
0 – 20	0% (nothing)
21 – 40	40%
41 – 60	60%
61 – 70	80%
71 – 80	90%
81 – 100	100%

Submitted WPR

Submitted WPR lists every WPR of the hospital with Week, Month, Score, Payment share, Submitted date and Status. Pending = waiting for the CMS; Verified = accepted by the CMS and locked (with the Verified on date). An edited tag shows that the CMS changed a score; open the WPR to see the change log with the reason.

6. Monthly payment

1. Open Generate Payment.
2. Choose the agreement (Provider), Payment Month and Payment Year, and check the Sanctioned Beds.
3. The portal fetches the Average WPR Score of the verified WPRs and shows the Monthly Bill (Beds × Rate ÷ 12), Payment Percentage, Gross Payable, GST, TDS and Net Payable.
4. Click Submit Payment. The payment goes to the Admin for approval.

5. Payment List shows each payment with its status (Pending, Approved or Rejected).

> **Only verified WPRs count:** Pending WPRs are left out of the average. Make sure the CMS has verified all weeks of the month before generating the payment.

7. Warning letters

When the firm's performance is poor, the hospital can issue a warning letter from the payment (Payment List → Warning Letter). Fill in Warning Date, Warning Level, Subject, Reason and Remarks and save. The letter is a printable PDF and is listed under Warning Letters. The number of warning letters is itself one of the WPR parameters.

8. Reports

- Delivery Report – summary of linen picked up and delivered.
- Weekly Delivery and Monthly Delivery – figures by week and by month.
- Delivery Aging – how long pickups have been waiting for delivery.

9. Good practice

- Raise a pickup every time linen is sent, with the correct ward and shift.
- Check every delivery against the challan before accepting it.
- Score the WPR honestly and on time; it cannot be changed after submitting.
- Always click Logout when you finish.
