LAUNDRY MIS · DGMH UP

Service Provider User Manual

For the laundry firm (vendor)

Directorate General of Medical & Health Services, Uttar Pradesh

Version: October 2026

1. Your role in Laundry MIS

The Service Provider is the laundry firm that washes the linen of the hospitals in its contract. In the portal the firm accepts pickups, delivers the clean linen with a challan, follows the weekly scores, prints its monthly bill, raises a dispute if the bill is wrong, and generates its invoice.

How the bill is decided: The bill is not written by hand. The portal works it out from the WPR scores verified by the hospital's CMS, and the firm prints it.

2. Getting your login and signing in

Register with an activation code

1. Get the activation code of your firm from the Admin (DGMH Directorate).
2. On the home page click Register (Register with an activation code).
3. Choose your firm from the list, enter the activation code, fill in the contact details (mobile and email) and set a password.
4. Submit. The login is now tied to your firm's record.

Signing in

1. Open the Laundry MIS home page.
2. In the Sign in box choose User type: Service Provider.
3. Enter your registered mobile number or email and the password, and click Sign in.

Safety: After too many wrong passwords the account is locked for a few minutes. Never share the password.

3. The menu

Menu item	What it is for
Dashboard	Summary of pickups, deliveries and bills.
Accept Pickup	Pickups raised by your hospitals; accept them and deliver the clean linen.
Delivery Report, Weekly Delivery, Monthly Delivery, Delivery Aging	Reports of linen picked up, delivered and pending.
WPR Status	Every WPR of your hospitals with score, payment share and status.

My Bills (Print)	Monthly bills, ready to print once all weeks are verified.
Raise Dispute, My Disputes	Raise a dispute on a printed bill and follow its outcome.
Generate Invoice, Invoice List	Invoice for an approved payment.
Warning Letters	Warning letters issued to the firm.
Profile & Documents	Firm details, bank details and documents.

Use the ☰ button at the top left to open or close the menu. Use Logout at the top right when you finish.

4. Accepting pickups and delivering linen

1. Open Accept Pickup. It lists the pickups of your hospitals with Pickup No, Date, Hospital, Ward, Shift, Collected and Pending quantities and Status.
2. Check the items of a pending pickup and click Accept.
3. After washing, click Deliver on the pickup.
4. On Deliver Clean Linen enter the clean quantity of each linen type (Enter Clean), Delivered By, Received Back By and Remarks, and click Save Delivery. This records the Delivery Challan.
5. A pickup can be delivered in parts: its status is then Partial Delivered until the remaining quantity is delivered.

The hospital checks each delivery against the challan and accepts or rejects it. Accepted pickups show Verified.

5. WPR Status

Every week the hospital scores your service in the Weekly Performance Report (WPR) and the hospital's CMS verifies it. WPR Status shows each WPR of your hospitals by Week, Month and Hospital with Score, Payment share, Status and Verified on date. Filter by Status, Month and Year.

- Pending – submitted by the hospital, waiting for the CMS.
- Verified – accepted by the CMS and locked. Only verified WPRs count for the bill.

The ten parameters

#	Parameter (scored 0 to 10)
1	Hospital linen quality after wash
2	Timely supply of clean and washed linen
3	Washing procedure / formula and quality consumables followed
4	Laundry personnel displaying photo ID card
5	Behaviour of laundry personnel towards hospital staff and patients
6	Personnel found smoking / drinking / sleeping during duty
7	Personnel found on duty other than the approved list
8	Breakdown of equipment
9	Alternate arrangement during equipment breakdown
10	Number of warning letters issued by the hospital authority

How the score becomes the payment

Total score (out of 100)	Share of the monthly bill that is paid
0 – 20	0% (nothing)
21 – 40	40%
41 – 60	60%
61 – 70	80%
71 – 80	90%
81 – 100	100%

6. My Bills and printing the bill

My Bills lists every hospital and month for which you have a WPR, with Weeks verified (for example 3 of 5), WPR score, Net payable and Status.

Status	Meaning
Waiting for verification	Not every week of the month is verified yet. The bill cannot be printed.
Ready	All weeks (4, or 5 when the month has more than 28 days) are verified. Click Print bill.
Printed	The bill has been printed; the print date is shown.
Dispute open	A dispute on this month is waiting for the Admin.
Revised bill (v2) ready	A dispute was resolved and a revised bill is ready to print.

How the amount is worked out

- Monthly gross bill = beds × rate per bed per year ÷ 12.
- Monthly score = average of the verified weekly scores; its band gives the payable share.
- Base payable = gross bill × payable share.
- GST 18% is added and TDS 2% is deducted on the base payable. Net payable = base + GST − TDS.

Example: 100 beds × ₹12,540 = ₹12,54,000 a year → ₹1,04,500 a month. Weekly scores 78, 82, 88, 75, 72 give an average of 79 → 90%. Base payable ₹94,050 + GST ₹16,929 − TDS ₹1,881 = Net payable ₹1,09,098.

Printing

Click Print bill. The page shows the hospital, contract, beds and rate, each week's score with its verification date, the calculation and a signature area; use Print to print it. Every print is recorded and listed in the print history below the bill table.

7. Bill disputes

If you find a mistake in a printed bill – usually a WPR score you think is wrong – you can raise a dispute.

1. Open Raise Dispute (or Raise dispute on My Bills).
2. Choose the Hospital and the Year. The Month list shows only months whose bill you have printed and that have no open dispute.
3. Explain the problem in What is the problem? and click Submit dispute.

- Only one dispute can be open for a hospital and month at a time.
- My Disputes shows each dispute with its status: Open, Resolved or Rejected, and the outcome.
- Resolved – the Admin corrected the scores with a CMS letter; a Revised bill (v2) is ready on My Bills. The CMS letter can be opened from My Disputes.
- Rejected – the Admin found the bill correct and wrote the reason; the original bill stands.
- A new dispute for the same month can be raised only after printing the latest version.

8. Invoice

After the hospital generates the monthly payment and the Admin approves it, open Generate Invoice, choose the approved payment and generate the invoice. The invoice is a PDF with the amounts, the payment calculation and a Digital Verification block. Invoice List lets you preview, print and download it.

9. Warning letters and profile

- Warning Letters lists the warning letters issued to your firm by the hospital or Admin, as printable PDFs. Warnings follow a score below 60; repeated low scores can lead to a show-cause notice.
- Profile & Documents – keep the firm's details (firm name, GSTIN, PAN, MSME/Udyam, EPF, ESI, address), bank details and documents (PDF, JPG or PNG, up to 10 MB) up to date, and click Save profile.

10. Good practice

- Accept pickups and deliver on time – timely supply is one of the WPR parameters.
- Fill in the delivery challan carefully; the hospital checks it.
- Print the bill as soon as it is Ready, and raise a dispute only with a clear reason.
- Always click Logout when you finish.
